## The Right Foundation

High Quality Creative Education—A realistic, futuristic and real-time experience with the perfect balance of fun and creativity leading to higher levels of knowledge and learning. Divyam imparts the importance of Education and spreads the awareness of all social aspects to students. A right educational experience should inculcate vital skills of living, performing and achieving success along with the associated academic knowledge and practical skills. Imparting moral values, fine-tuning behavior, discipline and developing a positive attitude are very important aspects of Divyam Foundation. We believe every child should be given the independence to explore and learn thereby enhancing their natural development and empowered with the ability to think, understand, learn, adapt, implement, execute and create. We help them develop these skills in the right way leading them to define their own style and chart their path to a successful future.

*Divyam will act as a building block of success for every Child's education, career and future.*

We believe every child is exceptional with immense talent and qualities. He/ she is a responsible human being who possesses all good and vital qualities of life. We tap their inherent talents and develop their skills. We prepare them by inculcating moral values and individual-family-social awareness. We believe in overall development of children. We put our best efforts to help them in being balanced, stable and consistent. We work with them in building their physical, mental and emotional balance. We insist on proper behaviour, discipline, attitude, respect and manners of our students. We focus on developing social, interpersonal and intrapersonal skills to our students.

## The Divyam Spirit:

We believe that right education will create exceptional students. Their powers, potential and exceptional thoughts will trigger positive changes in themselves and to their friends and family. In addition, they can enhance their potential to initiate and influence positive reforms to the society.

We envision a positive and better tomorrow with our students. Today's students with powerful & vast knowledge, extraordinary awareness, great potential and strong ethics are the inspiring leaders of tomorrow. They are the gifted agents of positive change!

**We believe in nurturing children to outstanding students, exceptional human beings and responsible citizens. We prepare them for life - to be the best!**
